1. Introduction

The European Commission (hereafter ‘the Commission’) is committed to protect your personal data and to respect your privacy. The Commission collects and further processes personal data pursuant to Regulation (EU) 2018/1725 of the European Parliament and of the Council of 23 October 2018 on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and on the free movement of such data (repealing Regulation (EC) No 45/2001).

This privacy statement explains the reasons for the processing of your personal data, the way the Commission collects, handles and ensures protection of all personal data provided, how that information is used and what rights you have in relation to your personal data. It also specifies the contact details of the responsible Data Controller with whom you may exercise your rights, the Data Protection Officer and the European Data Protection Supervisor.

The information in relation to processing operations in the context of the management of Directive (EU) 2015/1535 laying down a procedure for the provision of information in the field
of technical regulations and of rules on Information Society services, including the TRIS-TBT system undertaken by the Data Controller is presented below.

2. Why and how do we process your personal data?

The Data Controller processes your personal data to implement Directive (EU) 2015/1535. The data processing is intended to inform you about draft national technical regulations and/or to allow you to participate in the procedure established by Directive (EU) 2015/1535.

In this context:

(i) The TRIS interface of the TRIS-TBT system supports all the notification procedure under Directive (EU) 2015/1535, from the moment in which a Member State (or EEA Member, Switzerland or Turkey) notify a draft technical regulation until the moment in which the notification process is closed either because the notification is withdrawn or because the final text is notified. In particular, the data controller collects and uses personal information of national contact points in charge of the implementation of Directive (EU) 2015/1535 to:

- Manage user access to the TRIS interface of the TRIS-TBT system.
- Enable users to upload the relevant draft national technical regulations and thus proceed to their formal notification; to follow up to and participate in the notification process; and to react to the notifications made by Member States.

(ii) The contact information of Member States’ and Commission’s staff responsible for the implementation of Directive (EU) 2015/1535 may be made public on the TRIS webpage upon consent, to facilitate the provision of information on notification procedures and the organisation of ad-hoc meetings when required by the complexity or importance of a notification.

(iii) Any third party can subscribe to receive automatic TRIS alerts from the TRIS webpage of new notifications in certain Member States or fields and/or to submit comments on specific notifications, which imply the processing of the relevant personal data upon consent.

In any of these scenarios, your data will not be used for an automated decision-making, including profiling.

Please note that only information related to an identified or identifiable natural person is considered personal data for these needs. Therefore, for example, functional mailboxes, telephone numbers or postal addresses not related to an identified person are not personal data.

Processing operations linked to the TRIS interface of the TRIS-TBT system users’ access, alert subscription, submission of comments and publication of contact details on the TRIS webpage take place based on the explicit consent of the data Subject.
