

Deliverable 6. Publications on network websites, peer reviewed journals and presentations in international conferences

A link to the ACTIVATE project has been included in the EUROCOORD website at the following address:

http://www.eurocoord.net/collaborative_projects/activate.aspx

The website includes a brief presentation of the project, focusing on the developed training programmes and curricula and on the capacity building programmes in HIV/AIDS management that were created using the expertise of the four major European clinical HIV/AIDS networks (PENTA, CASCADE, EuroSIDA, EuropeHIVResistance).

Other activities included in D6 are:

- the ACTIVATE poster from the AIDS 2010 Vienna conference;
- the interview for the EU journal "Joining Together to tackle HIV/AIDS in Europe".
