# EUROCHIP-III "Common Actions"

JA2015 - GPSD [705038]

START DATE: 01/09/2008

END DATE: 01/03/2012

DURATION: 42 month(s)

CURRENT STATUS: Finalised

PROGRAMME TITLE: First Programme of Community action in the field of public health (2003-2008)

PROGRAMME PRIORITY: -

CALL: Health Information (Hi 2007)

TOPIC: Developing strategies for information exchange and responding to non-communicable health threats

EC CONTRIBUTION: 603000 EUR

KEYWORDS: Cancer, Cervical, Health system, Patients registries, Screening

PORTFOLIO: Indicators and data, Major and chronic diseases, Social determinants and health inequalities

## General objectives

EUROCHIP3 is a multidisciplinary 3-year common-action project involving all EU Member States (MS) to remedy major inequalities in cancer, and form the pillars of a EU cancer control strategy. The cancer inequalities addressed were identified by EUROCHIP2. EUROCHIP3 will work offering economies of scale and solidarity-based initiatives.

## Strategic relevance and contribution to the public health programme

In spite of impressive progress in our understanding of cancer control remains inadequate: 1. Women die for avoidable causes of death: excess of cervical cancer mortality because of lack of screening in Eastern European countries. 2. The European cancer information system is quite complete in some Member States and poor in others. 3. The rehabilitation needs of people with a past diagnosis of cancer are often inadequately met. 4. Cancer management costs are increasing faster than resources: a global discussion has to be promoted.

## Methods and means

EUROCHIP3 is organized into work packages (WP): WP4 to promote actions aimed to reduce avoidable cervical cancer deaths in 5 MS (focus on cancer in women); WP5 to promote collection of cancer registration indicators; WP6 to develop indicators for rehabilitation of cancer survivors; WP7 to discuss and investigate methods to reduce costs of cancer control (priority: childhood cancers and female breast cancer). The work is carried out by the existing EUROCHIP network, operating on a consensus conference method and based on solidarity principles. The Network is composed by the EUROCHIP Panel of Experts (i.e. one delegate from each one of the 27 EU MS), several EU health authorities, all the most relevant cancer networks, agencies and organizations, over 100 cancer researchers and cancer stakeholders in the EU.

## Expected outcomes period

EUROCHIP3 will promote specific actions to reduce cancer inequalities, disseminate best practices drafted by experts, and suggest new strategies to reduce costs, thereby helping to improve access to cancer care for EU citizens.

## COORDINATOR

Fondazione IRCCS "Istituto Nazionale dei Tumori" (Fondazione IRCCS "Istituto Nazionale dei Tumori")

Via Giacomo Venezian, 1  
20133 Milano

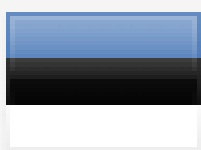

Italy

## PARTNERS

Institute of Public Health - IPH  
Street: Juliette Wytsmanstr. 14  
City: Brussels

Country: Belgium

National Institute for Health Development - NIHD  
Street: Hiiu 42  
City: Tallinn

Country: Estonia

National Oncological Hospital - BNCR  
Street: Plovdivsko pole Str. 6  
City: Sofia

Country: Bulgaria

Integraal Kankercentrum Noord-Nederland - IKN  
Street: Waterloolaan 1 - 13  
City: Groningen

Country: Netherlands

European School of Oncology - ESO

Street: Via del Bollo, 4

City: Milan

Country: Italy

Suomen Syöpäyhdistys R.Y. (Cancer Society of Finland)

Street: Liisankatu 21 B

City: 00170 Helsinki

Country: Finland
