Health & Road safety: volunteering heroes

JA2015 - GPSD [705038]

START DATE: 01/01/2008

END DATE: 01/01/2011

DURATION: 36 month(s)

CURRENT STATUS: Finalised

PROGRAMME TITLE: First Programme of Community action in the field of public health (2003-2008)

PROGRAMME PRIORITY: -

CALL: Health Determinants (Hd 2007)

TOPIC: Public health actions to address wider determinants of health

EC CONTRIBUTION: 650000 EUR

KEYWORDS: Adolescents, Alcohol, Health education, Injuries

PORTFOLIO: Health in all policies, Healthy environments, Population groups

General objectives

HEROES will bring various organisations involved in preventive health care, health promotion and road safety together to exchange information on working methods and share good practices on awareness-raising about road traffic risks for adolescents and young adults.

Strategic relevance and contribution to the public health programme

HEROES will contribute to improving health by reducing death and disabilities. Road traffic injuries are one of the leading causes for Disability Adjusted Life-Years. Alcohol and drug consumption are leading risk factors.

Methods and means

Synergies with other activities co-funded by the European Commission and other institutions will be taken into account. The activities will include both risk and protective factors with an impact on lifestyle and behaviour. As half of the associated partners have a preventive health care and health promotion background and the other half of the associated partners have a road safety prevention background, HEROES will allow each project partner to create an adapted integrated best practice campaign linking preventive health care and health promotion with road safety. This will be done with integrative approaches across several health determinants.

Expected outcomes period

- HEROES will inform volunteers, students and peer educators about campaigns organized in other countries and in other domains of health.
- The project will train volunteers, students and peer educators in preventive health care and health promotion (HIV/AIDS prevention, alcohol abuse prevention and/or drug prevention) and road safety.
- Volunteers, students and peer educators will use their know-how and consider themselves as HEROES when using cross-sector top quality activities.
- HEROES material will be used by volunteers, students and peer educators, giving this project high visibility and making it cost efficient.

COORDINATOR

Fondation Tanguy Moreau de Melen-Responsible Young Drivers-Secura Forum - RYD (Fondation Tanguy Moreau de Melen-Responsible Young Drivers-Secura Forum - RYD)

Place des Barricades 9
1000 Bruxelles
