Project abstract

The overarching goal of the SFP Coalition multiannual work programme between 2018 and 2021 is to prevent cancer and chronic diseases through smoking prevention at EU and national level with a special focus on young people and health in all policies. The work plan for 2019 will support this goal by continuing advocacy campaigns on tobacco control research and tobacco taxation; by building on the results of the global meetings on the FCTC and Illicit Trade Protocol and the UN NCD process, by continuing to engage its Coalition members at EU level, and by supporting national campaigns and capacity building for effective civil dialogue and tobacco control advocacy. In 2019 SFP will also focus on awareness raising on the FCTC, the Illicit Trade Protocol, SDG 3 and targets 3.4 and 3.A in the context of the European elections.
