SPAIN

Date of data collection or reference period	Since 13th May 2013, weekly prices are calculated as the arithmetic average daily price from Tuesday to Monday (inclusive)
Reporting body	Ministry for the Ecological Transition
Reporting price discounts on motor fuels	Discount equal to the average of the discounts applied and reported to the Ministry by major operators. The applied discount only comes from loyalty cards.
Market coverage and data sources	• 23 major operators with over 11.400 petrol stations (incl. over 3.400 independent retailers). The sample covers 100% of filling stations.
Price averages	The daily price is obtained from the average of the prices of all petrol stations on a random time of day
Biofuels	• Article 41 of R.D.Ley 4/2013 .- Minimum percentage of biofuel component of motor fuels: 4,1% for 2013 and beyond (4,1% for biodiesel and 3,9% for gasoline). • Zero excise duty on biodiesel until 31/12/2012, full excise duty starting from 1/1/2013.
Other indirect taxes reported	State taxes (hydrocarbon special tax and retailer tax) and regional taxes reported under the category 'other indirect taxes'
