The project EU Aid Volunteers for Resilience and Response Capacities of vulnerable communities through the deployment of EU Aid Volunteers aims at improving the response and the resilience capacities of the most vulnerable local communities through needs-based humanitarian aid (HA) in Latin America, Africa and Eurasia with the involvement of 40 EU Aid Volunteers. It is implemented in 16 third countries and it is composed by a consortium of 2 Sending organizations (AAH Spain and WW GVC Italy) and 19 branch offices as hosting organizations between AAH and WW GVC (Colombia, Guatemala, Peru, Senegal, Niger, Mauritania, Burkina Faso, Benin, Kenya, Tanzania, Mali, Mozambique, Philippines, Occupied Palestinian Territories, Lebanon, Georgia). The 2 sending organizations will deploy 40 European citizens in humanitarian aid operations as EUAV, 39 junior and 1 senior. This main objective will be achieved through the Deployment and monitoring of EU Aid Volunteers in Latin America (SO1), Deployment and monitoring of EU Aid Volunteers in Latin America (SO2), Deployment and monitoring of EU Aid Volunteers in Asia and Middle-East (SO3). These specific objectives will be ensured through a defined coordination mechanism between EU and in-country partners (SO 4). The expected impact of the project is fully oriented to a whole process of skills creation and knowledge reinforcement related to the deployed EU Aid Volunteers, suitable to generate change and improvement on preparedness and resilience mechanisms among vulnerable populations, technicians and authorities at different level. Training, communication, dissemination and promotion of vacancies will be a crucial part of the project. The project will have a 24-months duration and the EUAVs will be deployed for a period of between 4 and 12 months, depending on the profile and needs previously expressed by each interested country. 12 apprenticeships are also foreseen and volunteers will be trained at both HQ.
