Authentication & Identity Management - Enumerations

1 - Introduction

This "Enumerations" document contains the value lists for drop down elements and lists where a limited set of values can be selected.

2 - Purpose

This purpose of this document is to provide an overview of the possible values fields can contain to be valid information for EUDAMED.

3 - Scope

We opted to provide enumerations and their detailed descriptions by module. This document refers to AIM module Enumerations only.

4 - Change log

- No updates

5 - Enumerations

<table>
<tr><th>Summary</th><th>Status</th><th>Description</th></tr>
<tr><td>BR-IAM-045 : Access request states - ENUM_AIM_REQUEST_STATE</td><td>RESOLVED</td><td>An Access request must have one of the following states:
<table><tr><th>Label</th><th>Value</th><th>Notes</th></tr><tr><td>Draft</td><td>DRAFT</td><td></td></tr><tr><td>Submitted</td><td>SUBMITTED</td><td></td></tr><tr><td>Reopened</td><td>REOPENED</td><td></td></tr><tr><td>Validated</td><td>VALIDATED</td><td></td></tr><tr><td>Discarded</td><td>DISCARDED</td><td></td></tr><tr><td>Refused</td><td>REFUSED</td><td>Intended for > release 2.0</td></tr></table>Draft requests may also be deleted, i.e. removed from the system.</td></tr>
<tr><td>BR-IAM-060 : EUDAMED Account status - ENUM_AIM_ACCOUNT_STATUS</td><td>RESOLVED</td><td>The EUDAMED account statuses are the following:
<table><tr><th>Label</th><th>Value</th><th>Notes</th></tr><tr><td>Active</td><td>ACTIVE</td><td></td></tr><tr><td>Suspended</td><td>SUSPENDED</td><td>Not for Release 2.0</td></tr><tr><td>Teminated</td><td>TERMINATED</td><td></td></tr></table></td></tr>
<tr><td>BR-IAM-061 : EUDAMED Account Rejection Reasons - ENUM_AIM_REJECTION_REQ</td><td>RESOLVED</td><td>EUDAMED Account rejection reasons are the following:
<table><tr><th>Label</th><th>Value</th><th>Notes</th></tr><tr><td>Incomplete and/or details to correct</td><td>INCOMPLETE</td><td></td></tr><tr><td>Refused request</td><td>REFUSED</td><td></td></tr></table></td></tr>
</table>

BR-IAM-062 : first NB LAA account states - ENUM_AIM_FIRST_NB_LAA_STATES

RESOLVED

Label	Value	Notes
Draft	DRAFT	A first NB LAA account request is saved as "Draft" when the authenticated user does not have all the information to "Submit". Every time a user moves forward in the registration wizard the data is saved.
Deleted	DELETED	"Draft" first NB LAA account requests can be "Deleted", this results in the deletion of the record in the system. (Note: This is not a state in the system, but included here to demonstrate deletion in the state diagram)
Submitted	SUBMITTED	A first NB LAA account request in state "Submitted" means the authenticate user requests for an assessment of his submitted request.
Refused	REFUSED	A first NB LAA account request can be rejected after assessment and be placed in state "Refused". This is a final state.
Validated	VALIDATED	When a first NB LAA account request is approved after an assessment the request moves into state "Validated" and the actor is created.

BR-IAM-063 : CA selection for first NB LAA assessment

RESOLVED

When importing the Notified Bodies from NANDO to EUDAMED each NB has a reference towards his designated authorithy within NANDO.

These designated authorithies (DA) are mapped against actors in EUDAMED when the DAs are being entered by the EC user.

When a first NB LAA account request is created the CA for assessing this request is the same as the DA for this NB from NANDO.

This CA is the best candidate to assess this request.

BR-IAM-064 : List of profiles (Actor) - ENUM_IAM_ACTOR_PROFILES

RESOLVED

Label	Value	Notes
Local Actor Administrator	LAA	
Local User Administrator	LUA	
Mandate Manager	MF MANDATE MANAGER	Non-EU MF only
AR Verifier	AR VERIFIER	AR only
CA Validator	CA VALIDATOR	CA only
Importer linker	IMPORTER LINKER	Importer only
