"EQUIPMENT AND VEHICLES FOR THE SECTOR OF EMERGENCY
MANAGEMENT ENV"

Publication reference: EuropeAid/137374/DH/SUP/RS

No.	Question	Answer
1.	<p>Lot 2 Item 2.2 Sewerage Pumping Units</p> <p>After discussions with several manufacturers it would appear that an inlet and outlet diameter of 110mm will not be large enough to achieve the required flow of 15000 l/min.</p> <p>Please can you confirm that you will accept larger diameter inlets and outlets.</p>	<p>Larger diameter inlets and outlets are acceptable.</p> <p>The Technical Specifications item 2.2 stated minimum diameters.</p>
2.	<p>We kindly ask you to clarify the issue of power requirement for the generators of tender mentioned above.</p>	<p>The power requirement for the generator should be compatible with the pump drive unit power (min 30 kW) stated in item 2.2</p>
3.	<p>Regarding Lot 2: Generators and Sewage pumping units of the above mentioned contract, we would appreciate to receive further technical specifications for items 1 generators. The specifications published are not enough to make a proper offer, for example the capacity of the generators is not stated (KVA or KW). Also please specify if you want gasoline or diesel or if both are acceptable.</p>	<p>The power requirement for the generator should be compatible with the pump drive unit power (min 30 kW) stated in item 2.2</p> <p>Diesel or gasoline are both acceptable, for item 2.1 of the technical specifications.</p>
4.	<p>Lot 2 Item 1: Please confirm if the generator should be the open frame type or should it be enclosed in a sound proof enclosure?</p>	<p>The Generator should be enclosed type.</p>
5.	<p>Item 1: Please clarify what is the minimum required power for the generators. Is it needed to power the sewage pumps?</p>	<p>The power requirement for the generator should be compatible with the pump drive unit power (min 30 kW) stated in item 2.2</p>
6.	<p>Item 3: Is the trailer intended to transport the sewage pump or to transport the sewage pump AND the Generators</p>	<p>Trailers are to be used for transporting Sewage pumping units (see par. 2.2) with all accessory parts</p>
7.	<p>Item 2.1 – Generators: Please specify the requested rating (power) of Generator in kW/kVa.</p>	<p>The power requirement for the generator should be compatible with the pump drive unit power (min 30 kW) stated in item 2.2</p>
