

COOPERATION IDEA

for Fisheries Local Action Groups

Title of the proposed project: Processing and retailing fisheries and aquaculture products

Description of cooperation proposed

The project aims to encourage private investment in processing fisheries and aquaculture products (FAPs), highlighting the new opportunities and markets. We are searching for transnational partners who are interested in promoting such investments and can show good practices and innovation in the field of processing fisheries and aquaculture products.

- Proposed Actions: Market research on FAPs, study on FAP processing business, new product studies based on local catch, local events about food quality assurance, branding, good practices, innovation, packaging
- Desired results: Increase of processed FAP and income of local fishermen
- Long-term: decrease of over-fishing
