Swedish National Rural Network
Support to LAGs
Transnational cooperation
Manager for the Leader+ network
A National Rural Network (NRN) in all EU member states

The EU RDP article 68: Each Member State shall establish a national rural network,

In Sweden the tasks are:

”…to bring together parties involved in or affected by the Rural Development Programme, through information activities, exchanges of experience……

to improve the RDP implementation and strengthen its potential for rural development. … serve as a national and transnational forum for wide-ranging exchange of information ……
to broaden dialogue on implementation at and between local, regional, national and international levels.”
What is a network?

Connections between people and organisations with different skills and without hierarchy
All members contribute with their resources
Membership is based merely on activity
Can have a formal structure with a service unit
Can be temporary or more permanent
<table>

The purpose of the Swedish Rural Network

**Axis 1**

**Axis 2**

**Axis 3**

**Axis 4 Leader**

**The Rural Development Program**

**The aim of the network**

**Strengthen its potential for rural development**

**Type of activities**

- Exchange of information, experience and methods
- Broad dialogue between local, regional, national and international level
- Exchanges of experience between rural development policy, regional development policy and environmental policy

Improve the implementation
## Network structure

- Membership for all rural actors at national level (but also LAGs)
- A Steering Committee of 11 members
- Network (service) Unit placed at the Managing Authority
- Many activities are driven by the members

## MA support unit

- Helping LAGs in the set up process
- The Leader approach
- Helping the regional administrations in the approval
- Training of LAGs in regulation and administrative system
Network activities

- Yearly
  - 2 network conferences
  - 1 national Leader conference
  - 1 Rural Gala with awards for best practice
- Meetings with Leader managers and chairmen
- ”Cheques” for member activities
- ”Cheques” to LAGs for transnational cooperation
- Telephone Think Workshops
- Training and education, evaluation, leadership etc..
- Thematic working groups
- Scientific Council
- Support measures for LAGs
- Newsletter
- Web site
Capacity building for LAGs

- Mentorship financed
- Evaluation and follow up methods at conferences and as a pilot activity
- Seminars and exchange of experiences at national and regional conferences
- Best practice and award nomination
Support for LAG networking

- Inviting LAGs to national conferences
- Organising and supporting a structure for LAGs coordination
- Network cheques to start up transnational cooperation (Study trips to initiate contacts)
- Helping to find partners
- Distributing partnership offers
- Coordinating/Organising reception of study trips from other member states
- Organising thematic study trips
- Help to organise interregional cooperation
Thematic studies and program follow-up

• Including LAGs in thematic working groups (Gender equality, Integration, Youth, Community planning, Environment and climate change, Local capital)

• Telephone Think Workshops (on demand) for the whole network or exclusively for Leader issues. 1 hour of structured well defined telephonic meetings with limited amount of participants and aggregation of the results.
Participation in international thematic groups

- Focus groups: Bottom up approach, Transnational co-operation….
- Relevant examples (success factors, innovations, transferability, sustainability, effectiveness)
- Forestry
- Social farming
- EU Commission Thematic Working Groups
How do we develop the rural areas?
The Rural Parliament is Sweden’s largest meeting place with dialogue, inspiration and exchange of experience.

The main purpose of the Rural Parliament is to motivate and inspire participants to start new rural projects and develop the countryside even more than today. The aim is to discuss the current “tool-box” (Rural development programme including Leader, national tools, other relevant EU-programmes). What kind of “tool-box” is needed after 2013?

We will look into the future – what will be the living conditions 2020? We will focus on three themes: transport, climate and energy. Researchers will describe scenarios for the future, 2020/2025, and their impact on the rural areas.

We will show the participants different rural projects that has been, and still are, successful. There will be 10 seminars in English and 70 seminars in Swedish. The seminars and the visit to different rural projects will cover topics such as energy (water, wind, sun, biodiesel production) tourism, nature projects, culture, youth projects, Integration etcetera.

Where generations meet rural development happens!
Thank you!
