

Gdynia Cooperation Corner Board

On the occasion of the fifth transnational FARNET seminar (**5-7 July, Gdynia, PL**), a cooperation corner session was proposed to participants as a dedicated working group session.

Several cooperation topics were identified and have been assembled in eight broad cooperation themes. Under each of these themes listed below, you will find a **description of the cooperation proposed** and the general information of the **FLAGs interested in that cooperation topic**. You will also find the contact details, website and basic information on the subject.

To react on these cooperation ideas, ask for further details or propose a new cooperation subject, please contact the FARNET team at **info@farnet.eu**. Of course, also feel free to contact the FLAGs proposing the different cooperation ideas.

In addition, please have a look at our **cooperation discussion group on LinkedIn**, where you will be able to exchange on each of these identified cooperation themes.
