

COOPERATION IDEA

Fisheries Local Action Groups

Fisheries and angling potential - creating the conditions for local development

A group of 9 inland and coastal FLAGs from Poland are looking for partners to involve in a cooperation project that entails the exchange of experience and joint actions with the following goals:

- ✓ increasing the value of fishery products and promoting innovation at all stages of the fishery supply chain
- ✓ making use of fishing harbours and local fisheries potential for raising tourist attractiveness of FLAG areas
- ✓ creating the conditions developing angling as an element of the local development process

In particular, the group would like to undertake two study visits to FLAGs abroad working on the above themes: one inland fisheries area and one coastal fisheries area. The planned period for the visits is the second half of 2020.

Proposed actions:

- study visits
- promotional events related to fish products
- fishing competition
- promotion of FLAGs areas as tourist destinations

Thematic category: Adding value to fisheries products; processing; promotion; short circuits; tourism; local development; marine activities; coastal fisheries; aquaculture.

Looking for two foreign partners located: one inland and one coastal fisheries area.
