

Experiences from Thorupstrand

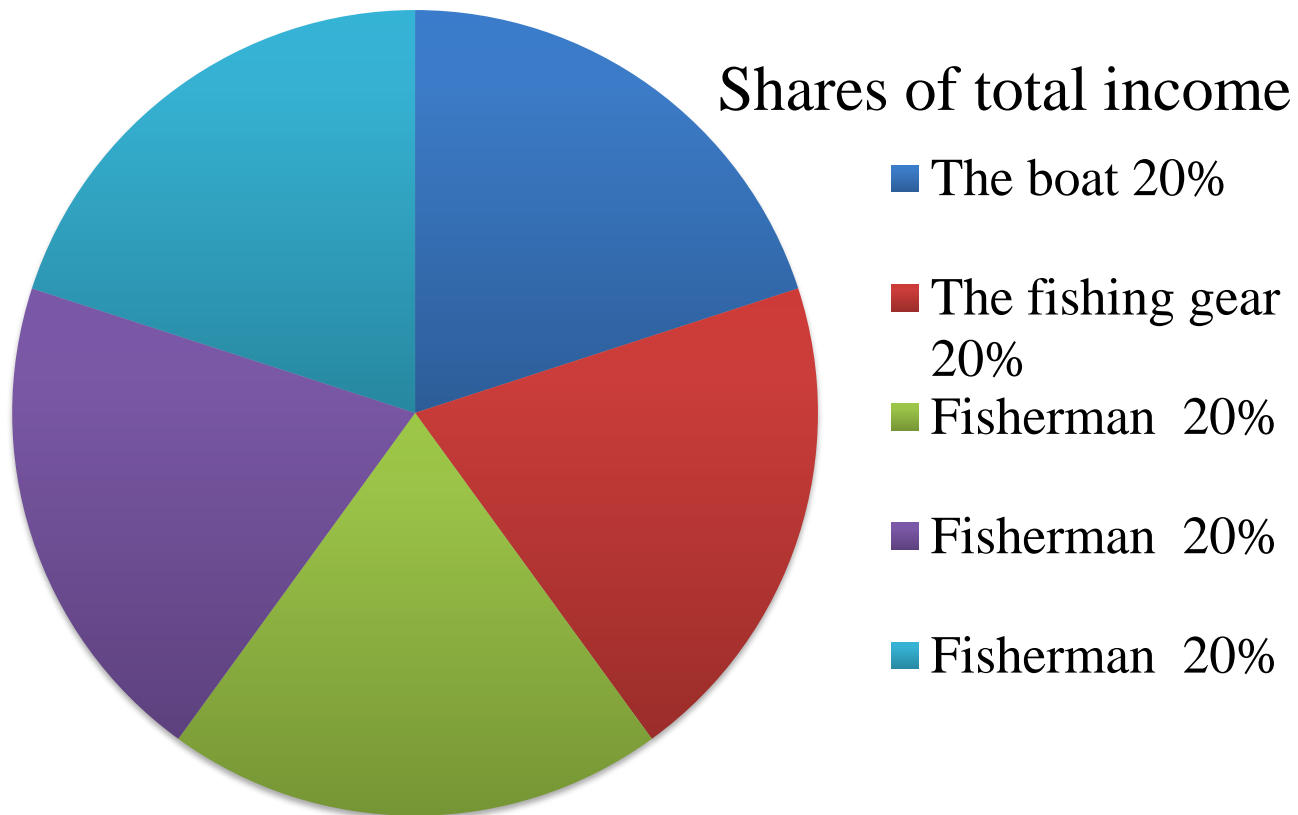

- Securing a common access of the community to the marine resources (+ co-management)
- Improving the conditions of possibility for the young fishing families (e.g. FLAG supported)
- Facilitating the whole value chain by means of e.g. FLAG supported investments
- Engaging media and developing own www platforms (e.g. FLAG supported)

KAFFE

KAFFE 15.15

The banks and their security:

- Enough members of the guild
- Obligation to use the common quota (and the right of using)
- Always working towards paying off the banks loans

Prerequisites for being a member:

- Landing and fishing from Thorupstrand
- A-status fisherman (full-time, commercial fisherman)
- Registered in the Coastal Fishing Scheme
- Living up to the codex of the guild

Equal distribution of quotas

- Each member has only one vote regardless of how much s/he catches
- The common quotas are distributed yearly between the members

New generations can become members of the guild on the same conditions as the guild's founders

Young people can establish themselves as independent fishermen through their quota shares in the guild

THORUPSTRAND GUILD OF COASTAL FISHERIES' CODEX OF CULTURALLY AWARE AND SUSTAINABLE FISHERY

Thorupstrand Guild of Coastal Fisheries wishes to promote sustainable fishery characterised by:

1. Low energy consumption
2. Consideration of the seabed, fauna and fish throughout the local ecosystem
3. Minimal discard during daily catching of e-fish.
4. Maximum utilization of fish in the sea by targeting fish of the highest quality
5. Discouragement of speculation in natural resources and overfishing
6. Preservation of the vibrant coastal culture and heritage of the local community.

Important steps in Thorupstrand

- Formation of a common cooperative community quota company
- Facilitate the whole value chain from boatbuilding to consumer consciousness
- Construction of facilities to processing, packing and transporting fishproducts to the market
- Engaging media and developing own www platforms
