

Welcome to ESSnet Big Data

Big data: from exploration to exploitation.

[ESSnet Big Data](#) is a project within the [European statistical system \(ESS\)](#) jointly undertaken by 28 [partners](#). Its objective is the integration of big data in the regular production of official statistics, through pilots exploring the potential of selected big data sources, and through building and implementing concrete applications.

ESSnet Big Data II has started in November 2018 and is to run for 26 months until December 2020. It is a continuation of [ESSnet Big Data I](#) (from February 2016 until May 2018) and consists of 12 workpackages, A to L. Apart from *WPA Coordination* supporting and coordinating the project overall, these are grouped into an '[Implementation Track](#)' covering *WPB to WPF*, a '[Pilots Track](#)' covering *WPG to WPK* and the stand-alone workpackage *WPL* on smart statistics.

Click on one of the headings below to find all information on common aids and tools, on the project or on a content workpackage. You can also use the [categories](#) or the search box (top right, case-sensitive).

Send a mail to essnetbigdata@economie.fgov.be if you have a question or comment.

All results of ESSnet Big Data I can still be consulted [here](#).

[Aids and tools](#)

Including, among others: [Big data event calendar](#), [Big data links](#), [Documentation](#), [Templates and images](#), ...

[Project information and coordination](#)

Including, among others: [Calendars and meetings](#), [Experimental big data statistics](#), [Results](#), [Working areas](#), ...
