

This is a *stub page*, in other words an article too short to provide more than rudimentary information about a subject. Anyone can edit a stub article, or remove a stub template from an article which is no longer a stub.

**IVU** stands for Unit Value Index, from French **I**ndice de valeur **u**nitaire.

*Unit-values are defined by: trade value / quantity. These unit-values are divided by the average unit-value of the previous year to obtain elementary unit-value indices, from which outliers are detected and removed.*
