

This is a [stub page](#), in other words an article too short to provide more than rudimentary information about a subject. Anyone can edit a stub article, or remove a stub template from an article which is no longer a stub.

Stata is a general-purpose statistical software package created in 1985 by StataCorp.^[1]

Stata/IC 15 (standard Stata), Stata/SE 15 (**s**pecial **e**dition) & Stata/MP 15 (**m**ultiprocessor) are available as virtualized applications.

Stata/MP 15 is the fastest version of Stata and can handle more variables and observations^[2], but DG ECFIN has only a few licenses of this one.

Batch mode

Path to be used in command files: "C:\Program Files (x86)\Microsoft Application Virtualization Client\sfttray.exe" /launch "Stata [V]"
