Audit Firms role management tutorial

Audit Firms

An organisation becomes an external audit firm for the EC as soon as the audit service contract is signed, and the signatory is granted the role of [Primary External Auditor](#).

This section covers the different Audit firm specific roles and how to manage those in the Funding & Tenders Portal, as well as how to manage teams and assign audits to them.

For details on the rest of roles of the organisation needed for grants or procurement contracts with the EC see [Roles and access rights](#).

For information about the Business Process steps to be followed by external auditors, please see [Outsourced audit - steps for audit firms](#).

The overview of the existing roles for the organisation are listed in the **Organisation Roles** tab in the portal: access **Manage My Area**, **My organisations** and select **View Roles** within **Actions** on the right, you arrive to the organisation **Roles** tab.

If the first or last name are not correct, but the email address is correct, the portal will automatically use the data as registered in EU Login. If the email address is not known, then, the user will be saved in the list of roles, but that person will receive an email to create an EU Login. You will differentiate this non-registered user from the rest because the username will remain empty in the **Roles** tab until the person finishes the registration.
