

MARITIME FORUM

Ocean Energy Forum - Edinburgh open session conference report

Published on: Wed, 18/05/2016 - 16:34

The Forum is pleased to publish the report following the Edinburgh conference. The report details the outcomes of the breakout discussions for the draft Strategic Roadmap 6 x key recommendations and the University of Exeter's input to the Roadmap Evidence-Base, with summaries in the main body of the report.

The Forum is pleased to publish the report following the [Edinburgh conference](#) [1]. The report details the outcomes of the breakout discussions for the draft Strategic Roadmap 6 x key recommendations and the University of Exeter's input to the Roadmap Evidence-Base, with summaries in the main body of the report.

The next steps following Edinburgh is for the Steering Committee Chairs to use the sessional outcomes as required to finalise proposals for the key recommendations (i.e. proposals for more detail on who, what, when and how such proposals could be implemented).

There is also a separate but related exercise re refinement (evidence-base and structure) of the Final Roadmap itself and we (the Secretariat) are aiming to produce a paper on this for the Paris meeting being held 22 June 2016.

Both these items will be signed-off at Paris – i.e. final updates agreed so that the Secretariat can then bring all together and produce the final Roadmap.

If you would like to attend Paris, please [register here](#). [2]
