

MARITIME FORUM

2019 IMBeR Open Science Conference

Event date:

17/06/2019 (All day) to 21/06/2019 (All day)

Brest (France)

Future Oceans2 is the second IMBeR Open Science Conference and will provide an opportunity to join world leading researchers to present advances in science from all disciplines that contribute towards -

ocean sustainability for the benefit of society: understanding, challenges, and solutions

In addition to delivering an update of the pertinent science, Future Oceans2 will foster productive inter-and trans-disciplinary discussions and provide a forum to strategically map future research directions. Within this context, Future Oceans2 is based around three interlinked themes -

- Theme 1. Understanding and quantifying the state and variability of marine ecosystems;
- Theme 2. Improving scenarios, predictions and projections of future ocean-human systems at multiple scales; and
- Theme 3. Improving and achieving sustainable ocean governance.

Future Oceans2 will be a mix of talks (keynote, research, and contributed -up to 10 concurrent sessions each day), posters, workshops, focus groups, world cafés, and other formats to engage delegates. The conference will be preceded by two days of workshops.
