

MARITIME FORUM

Copernicus Marine Service Workshop & Training for the Aquaculture Sector

Event date:

24/09/2019 (All day) to 25/09/2019 (All day)

Athens, Greece

The [European Aquaculture Technology and Innovation Platform \[3\]](#) (EATIP) and [Mercator Ocean International \[4\]](#) organize the “Copernicus Marine for the Aquaculture Sector” event.

Focuses of the event:

- Allow for aquaculture community to share issues they are facing regarding operating at sea, such as water quality monitoring, aquaculture farm siting, optimization of existing locations, environmental risk management, or impact from climate change. The stakeholders will also express their expectations on how Copernicus Marine Service might contribute to tackle current and future challenges.
- Present Copernicus Marine Environment Monitoring Service experts and users to respond to those issues with existing examples and known solutions.
- Put in practice some of the existing examples and known solutions within marine hands-on technical training sessions.
