#### "New opportunities for Europe's fisheries areas"

What best title to introduce our first magazine and the goals of Axis 4?

The first edition of FARNET Magazine is now available in printed and electronic format.

Among a variety of subjects, our first issue includes full-length articles on:

- **the fisheries areas of North Jutland, Denmark**, where Axis 4 is supporting projects focusing on quality and better use of local products and services to create jobs.
- **capacity building** as a key feature of the **Estonian Axis 4** implementation programme which involved a two-stage selection process of the groups and their strategies.
- And also interviews with **Cesar Deben**, Director of "Policy Development and Coordination" at the European Commission's Directorate-General for Maritime Affairs and Fisheries and **Xavier Gizard**, Secretary-General of the Conference of Peripheral Maritime Regions of Europe (CPMR).
