Announcement and First Call for Papers

EAFE Workshop 2012

Green and Blue Growth: Challenges and opportunities for fisheries, aquaculture and the seafood industry

Bilbao, Spain 2-3 May 2012

Context:

The workshop will investigate how fisheries and aquaculture can be integrated and operate sympathetically with the concept of a green economy.

“Green Economy is an economy that results in improved human well-being and reduced inequalities over the long term, while not exposing future generations to significant environmental risks and ecological scarcities.”
(UNEP)

Topics:

Economic Growth:

1. *The Green Growth framework*
2. *Towards Green Growth: strategies and tools*
3. *Measurement of Economic of Performance and Social Progress*

Green Growth in the fisheries sector

4. *Achieving Blue (Ocean) Growth in Europe*
5. *Practical approaches in world fisheries*
6. *Implications for European fisheries*
7. *Implications for European aquaculture*
8. *Implications for the European value chain*

Timing:

Wednesday 2nd May 2012

1330- 1815: Plenary session including paper presentations and discussion
