

MARITIME FORUM

SSIA Conference 2020

Event date:

18/02/2020 - 00:00

Oban, United Kingdom

The SSIA is holding its annual conference in Oban on Tuesday 18th February 2020 followed by a day of workshops at SAMS on Wednesday 19th.

To build on the success of its previous conferences, the directors of the SSIA have started to plan this year's event, which will take place again in Oban, in February. The change of timing is to reflect comments that November is a busy time for those cultivating seaweed.

The SSIA is a forum for all industry voices, and people with any interest in this emerging sector are welcome to register and participate - please save the date, and look out for further information about the programme and how to register, which will be circulated as soon as it becomes available.

If you know of anyone else who might like to be kept up to date about the work of the SSIA, please just [follow this link](#) [2] to add additional names to the circulation list.
