ANNEXES 1 to 4

ANNEXES

to the

COMMISSION DELEGATED REGULATION (EU) .../...

amending and correcting the regulatory technical standards laid down in Delegated Regulation (EU) 2022/1288 as regards the content and presentation of information in relation to disclosures in precontractual documents and periodic reports for financial products investing in environmentally sustainable economic activities

Template pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: [complete]

Legal entity identifier: [complete]

Environmental and/or social characteristics

Does this financial product have a sustainable investment objective? *[tick and fill in as relevant, the percentage figure represents the minimum commitment to sustainable investments]*

Yes

No

☐ It will make a minimum of **sustainable investments with an environmental objective:** ____%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It will make a minimum of **sustainable investments with a social objective:** ____%

It **promotes Environmental/Social (E/S) characteristics** and while it does not have as its objective a sustainable investment, it will have a minimum proportion of ____% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promotes E/S characteristics, but **will not make any sustainable investments**

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

What environmental and/or social characteristics are promoted by this financial product? *[indicate the environmental and/or social characteristics promoted by the financial product and whether a reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the financial product]*

What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?

- **What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?** *[include, for financial products that make sustainable investments, a description of the objectives and how the sustainable investments contribute to the sustainable investment objective. For the financial products referred to in Article 6, first paragraph, of Regulation (EU) 2020/852, list the environmental objectives set out in Article 9 of that Regulation to which the sustainable investment underlying the financial product contributes]*

- **How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?** *[include a description for the financial product that partially intends to make sustainable investments]*

— How have the indicators for adverse impacts on sustainability factors been taken into account? *[include an explanation of how the indicators for adverse impacts in Table 1 of Annex I and any relevant indicators in Tables 2 and 3 of Annex I, are taken into account]*

— How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details: *[include an explanation on the alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights]*

[Include statement for financial products referred to in Article 6, first paragraph, of Regulation (EU) 2020/852]

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Does this financial product consider principal adverse impacts on sustainability factors?

☐ Yes, _____ *[If the financial product considers principal adverse impacts on sustainability factors, include a clear and reasoned explanation of how it considers principal adverse impacts on sustainability factors. Indicate where, in the information to be disclosed pursuant to Article 11(2) of Regulation (EU) 2019/2088, the information on principal adverse impacts on sustainability factors is available]*

☐ No

What investment strategy does this financial product follow? *[provide a description of the investment strategy and indicate how the strategy is implemented in the investment process on a continuous basis]*

The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.

Good governance practices include sound management structures, employee relations, remuneration of staff and tax compliance.

- **What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?**
- **What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?** *[include an indication of the rate, where there is a commitment to reduce the scope of investments by a minimum rate]*
- **What is the policy to assess good governance practices of the investee companies?** *[include a short description of the policy to assess good governance practices of the investee companies]*

What is the asset allocation planned for this financial product? *[include a narrative explanation of the investments of the financial product, including the minimum proportion of the investments of the financial product used to meet the environmental or social characteristics promoted by the financial product in accordance with the binding elements of the investment strategy, including the minimum proportion of sustainable investments of the financial product where that financial products commits to making sustainable investments, and the purpose of the remaining proportion of the investments, including a description of any minimum environmental or social safeguards]*

Asset allocation describes the share of investments in specific assets.

[include note only for financial products referred to in Article 6 of Regulation (EU) 2020/852]

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

[Include only relevant boxes, remove irrelevant ones for the financial product]

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

[include the note below where the financial product commits to making sustainable investments]

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?** *[for financial products that use derivatives as defined in Article 2(1), point (29), of Regulation (EU) No 600/2014 to attain the environmental or social characteristics they promote, describe how the use of those derivatives meets those characteristics]*

[include note only for the financial products referred to in Article 6, first paragraph, of Regulation (EU) 2020/852]

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

[include note for financial products referred to in Article 6, first paragraph, of Regulation (EU) 2020/852 that invest in environmental economic activities that are not environmentally sustainable economic activities]

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy? [include a section for the financial products referred to in Article 6, first paragraph, of Regulation (EU) 2020/852 and include the graphical representation referred to in Article 15(1), point (a), of this Regulation, the description referred to in Article 15(1), point (b), of this Regulation, a clear explanation as referred to in Article 15(1), point (c), of this Regulation, a narrative explanation as referred to in Article 15(1), point (d), of this Regulation and the information referred to in Article 15(2) and (3) of this Regulation]

● **Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?**

☐ Yes: [specify below, and details in the graphs of the box]

☐ In fossil gas ☐ In nuclear energy

☐ No

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

[only include in the graphs the figures for Taxonomy aligned fossil gas and/or nuclear energy as well as the corresponding legend and the explanatory text in the left hand margin if the financial product makes investments in fossil gas and/or nuclear energy]

economic activities and explain why the financial product invests in sustainable investments with an environmental objective in economic activities that are not Taxonomy-aligned]

What is the minimum share of socially sustainable investments? *[include section only where the financial product includes sustainable investments with a social objective]*

What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?

Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes? *[include section where an index has been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the financial product and indicate where the methodology used for the calculation of the designated index can be found]*

- ***How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?***
- ***How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?***
- ***How does the designated index differ from a relevant broad market index?***
- ***Where can the methodology used for the calculation of the designated index be found?***

[include note for financial products where an index has been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the financial product]

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Where can I find more product specific information online?

More product-specific information can be found on the website: *[include a hyperlink to the website referred to in Article 23 of this Regulation]*

ANNEX II

ANNEX III

Template pre-contractual disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: [complete]

Legal entity identifier: [complete]

Sustainable investment objective

Does this financial product have a sustainable investment objective? *[tick and fill in as relevant, the percentage figure represents the minimum commitment to sustainable investments]*

Yes

No

It will make a minimum of sustainable investments with an environmental objective: ____%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It will make a minimum of sustainable investments with a social objective: ____%

It promotes Environmental/Social (E/S) characteristics and while it does not have as its objective a sustainable investment, it will have a minimum proportion of ____% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promotes E/S characteristics, but will not make any sustainable investments

What is the sustainable investment objective of this financial product? *[indicate the investment objective pursued by the financial product, describe how the sustainable investments contribute to a sustainable investment objective and indicate whether a reference benchmark has been designated for the purpose of attaining the sustainable investment objective. For financial products referred to in Article 5, first paragraph, of Regulation (EU) 2020/852, in respect of sustainable investments with environmental objectives, list the environmental objectives set out in Article 9 of that Regulation to which the sustainable investment underlying the financial product contributes. For financial products referred to in Article 9(3) of Regulation (EU)*

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

2019/2088, indicate that the financial product has the objective of reducing carbon emissions and explain that the reference benchmark qualifies as an EU Climate Transition Benchmark or an EU Paris-aligned Benchmark under Title III, Chapter 3a, of Regulation (EU) 2016/1011 and indicate where the methodology used for the calculation of that benchmark can be found. Where no EU Climate Transition Benchmark or EU Paris-aligned Benchmark as qualified in accordance with Regulation (EU) 2016/1011 is available, describe that fact, how the continued effort of attaining the objective of reducing carbon emissions is ensured in view of achieving the objectives of the Paris Agreement and the extent to which the financial product complies with the methodological requirements set out in Commission Delegated Regulation (EU) 2020/1818]

- **What sustainability indicators are used to measure the attainment of the sustainable investment objective of this financial product?**

- **How do sustainable investments not cause significant harm to any environmental or social sustainable investment objective?**

— How have the indicators for adverse impacts on sustainability factors been taken into account? [explain how the indicators for adverse impacts in Table 1 of Annex I and any relevant indicators in Tables 2 and 3 of Annex I are taken into account]

— How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? [include an explanation on the alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights]

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Does this financial product consider principal adverse impacts on sustainability factors?

☐ Yes [if the financial product considers principal adverse impacts on sustainability factors, include a clear and reasoned explanation of how it considers principal adverse impacts on sustainability factors. Indicate where, in the information to be disclosed pursuant to Article 11(2) of Regulation (EU) 2019/2088, the information on principal adverse impacts on sustainability factors is available]

☐ No

The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.

What investment strategy does this financial product follow? [provide a description of the investment strategy and indicate how the strategy is implemented in the investment process on a continuous basis]

- **What are the binding elements of the investment strategy used to select the investments to attain the sustainable investment objective?**

Good governance
practices include
sound management
structures,
employee relations,
remuneration of
staff and tax
compliance.

● **What is the policy to assess good governance practices of the investee companies?**

Asset allocation
describes the share
of investments in
specific assets.

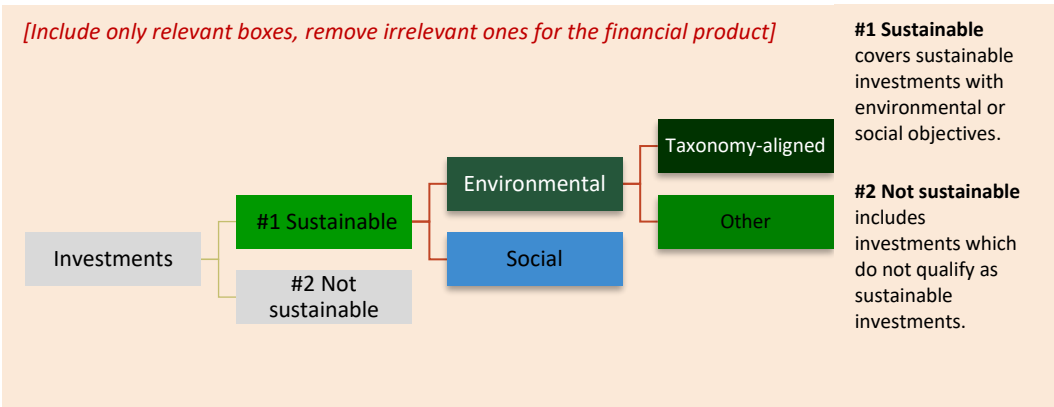

*[include note only for
financial products
referred to in Article 5,
first paragraph, of
Regulation (EU)
2020/852*

Taxonomy-aligned
activities are
expressed as a share
of:

- **turnover**
reflecting the
share of revenue
from green
activities of
investee
companies
- **capital
expenditure**
(CapEx) showing
the green
investments made
by investee
companies, e.g. for
a transition to a
green economy.
- **operational
expenditure**
(OpEx) reflecting
green operational
activities of
investee
companies.

What is the asset allocation and the minimum share of sustainable investments?

[include a narrative explanation of the investments of the financial product including the minimum proportion of the investments of the financial product used to meet the sustainable investment objective in accordance with the binding elements of the investment strategy]

● **How does the use of derivatives attain the sustainable investment objective?** *[for financial product that use derivatives as defined in Article 2(1), point (29), of Regulation (EU) No 600/2014 to attain their sustainable investment objective, describe how the use of those derivatives attains that sustainable investment objective]*

To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy? *[include the section for financial products referred to in Article 5, first paragraph, of Regulation (EU) 2020/852 and include the graphical representation referred to in Article 19(1), point (a), of this Regulation, the description referred to in Article 19(1), point (b), of this Regulation, the clear explanation referred to in Article 19(1), point (c), of this Regulation, the narrative explanation referred to in Article 19(1), point (d), of this Regulation]*

● **Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?**

- ☐ Yes: *[specify below, and details in the graphs of the box]*
- ☐ In fossil gas ☐ In nuclear energy
- ☐ No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

[include note only for financial products referred to in Article 5, first paragraph, of Regulation (EU) 2020/852

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

[include note for financial products referred to in Article 5, first paragraph, of Regulation (EU) 2020/852 that invest in environmental economic activities that are not environmentally sustainable economic activities]

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

[only include in the graphs the figures for Taxonomy aligned fossil gas and/or nuclear energy as well as the corresponding legend and the explanatory text in the left hand margin if the financial product makes investments in fossil gas and/or nuclear energy Taxonomy-aligned economic activities]

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

- **What is the minimum share of investments in transitional and enabling activities?** [include section for the financial products referred to in Article 5, first paragraph, of Regulation (EU) 2020/852]

What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy? [include section only for the financial products referred to in Article 5, first paragraph, of Regulation (EU) 2020/852 where the financial product invests in environmental economic activities that are not environmentally sustainable economic activities and explain why the financial product invests in sustainable investments with an environmental objective in economic activities that are not Taxonomy-aligned]

What is the minimum share of sustainable investments with a social objective? [include section only where the financial product includes sustainable investments with a social objective]

What investments are included under “#2 Not sustainable”, what is their purpose and are there any minimum environmental or social safeguards?

[describe the purpose of the remaining proportion of the investments of the financial product, including a description of any minimum environmental or social safeguards, how their proportion and use does not affect the delivery of the sustainable investment objective on a continuous basis and whether those investments are used for hedging or relate to cash held as ancillary liquidity]

Is a specific index designated as a reference benchmark to meet the sustainable investment objective?

[include section only for the financial products referred to in Article 9(1) of Regulation (EU) 2019/2088 and indicate where the methodology used for the calculation of the designated index can be found]

- ***How does the reference benchmark take into account sustainability factors in a way that is continuously aligned with the sustainable investment objective?***
- ***How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?***
- ***How does the designated index differ from a relevant broad market index?***
- ***Where can the methodology used for the calculation of the designated index be found?***

[include note for financial products referred to in Article 9(1) of Regulation (EU) 2019/2088]

Reference benchmarks are indexes to measure whether the financial product attains the sustainable investment objective.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: [complete]

Legal entity identifier: [complete]

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective? *[tick and fill in as relevant, the percentage figure represents sustainable investments]*

Yes

No

☐ It made **sustainable investments with an environmental objective**: ____%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ____%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met? *[list the environmental and/or social characteristics promoted by the financial product. For the financial products referred to in Article 6, first paragraph, of Regulation (EU) 2020/852, in respect of sustainable investments with environmental objectives, list the environmental objectives set out in Article 9 of that Regulation to which the sustainable investment underlying the financial product contributed. For financial products that made sustainable investments with social objectives, list the social objectives]*

How did the sustainability indicators perform?

- **...and compared to previous periods?** *[include for financial products where at least one previous periodic report was provided]*

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?** *[include for financial products that made sustainable investments, where not included in the reply to the above question, describe the objectives. Describe how the sustainable investments contributed to the sustainable investment objective. For the financial products referred to in Article 6, first paragraph, of Regulation (EU) 2020/852, list the environmental objectives set out in Article 9 of that Regulation to which the sustainable investment underlying the financial product contributed]*

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?** *[include where the financial product includes sustainable investments]*

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- How were the indicators for adverse impacts on sustainability factors taken into account?
- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

[Include a statement for the financial products referred to in Article 6, first paragraph, of Regulation (EU) 2020/852]

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors? *[include section if the financial product considered principal adverse impacts on sustainability factors]*

What were the top investments of this financial product?

Largest investments

Sector

% Assets

Country

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is:
[complete]

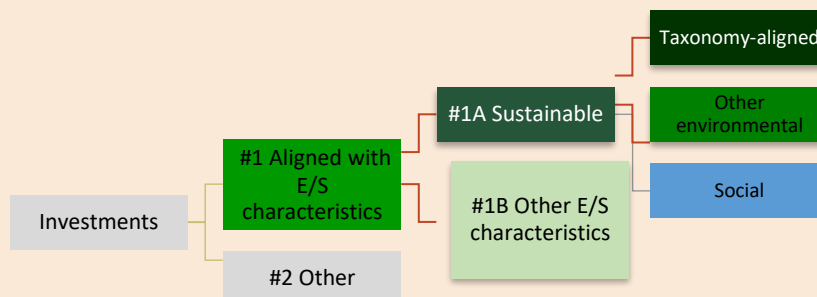

What was the proportion of sustainability-related investments?

● **What was the asset allocation?**

Asset allocation describes the share of investments in specific assets.

[Include only relevant boxes, remove irrelevant ones for the financial product]

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

[include the note below where the financial product made sustainable investments]

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- **In which economic sectors were the investments made?** *[include information referred to in Article 54 of this Regulation]*

- **To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?** *[include section for the financial products referred to in Article 6 , first paragraph, of Regulation (EU) 2020/852 and include information in accordance with Article 51 of this Regulation]*

- **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

☐ Yes: *[specify below, and details in the graphs of the box]*

☐ In fossil gas ☐ In nuclear energy

☐ No

[include note only for the financial products referred to in Article 6, first paragraph, of Regulation (EU) 2020/852]

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

[include note for the financial products referred to in Article 6, first paragraph, of Regulation (EU) 2020/852

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

[include note for the financial products referred to in Article 6, first paragraph, of Regulation (EU) 2020/852 that invest in environmental economic activities that are not environmentally sustainable economic activities]

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

[Include information on Taxonomy aligned fossil gas and nuclear energy and the explanatory text in the left hand margin on the previous page only if the financial product invested in fossil gas and/or nuclear energy Taxonomy-aligned economic activities during the reference period]

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

- **What was the share of investments made in transitional and enabling activities?** [include a breakdown of the proportions of investments during the reference period]
- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?** [include where at least one previous periodic report was provided]

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy? [include section only for the financial products referred to in Article 6, first subparagraph, of Regulation (EU) 2020/852 where the financial product included sustainable investments with an environmental objective that invested in economic activities that are not environmentally sustainable economic activities, and explain why the financial product invested in economic activities that were not Taxonomy-aligned]

What was the share of socially sustainable investments? [include only where the financial product included sustainable investments with a social objective]

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

What actions have been taken to meet the environmental and/or social characteristics during the reference period? *[list the actions taken within in the period covered*

by the periodic report to meet the environmental or social characteristics promoted by the financial product, including shareholder engagement as referred to in Article 3g of Directive 2007/36/EC and any other engagement relating to the environmental or social characteristics promoted by the financial product]

How did this financial product perform compared to the reference benchmark?

[include section where an index has been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the financial product and indicate where the methodology used for the calculation of the designated index can be found]

- ***How does the reference benchmark differ from a broad market index?***
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***
- ***How did this financial product perform compared with the reference benchmark?***
- ***How did this financial product perform compared with the broad market index?***

[include note for financial products where an index has been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the financial product]

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Legal entity identifier: [complete]

Sustainable investment objective

Did this financial product have a sustainable investment objective? <i>[tick and fill in as relevant, the percentage figure represents the sustainable investments]</i>	
<input checked="" type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ____% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ____%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent was the sustainable investment objective of this financial product met? *[list the sustainable investment objective of this financial product, and describe how the sustainable investments contributed to the sustainable investment objective. For the financial products referred to in Article 5, first paragraph, of Regulation (EU) 2020/852, in respect of sustainable investments with environmental objectives, indicate to which environmental objectives set out in Article 9 of Regulation (EU) 2020/852 to the investment underlying the financial product contributed to. For the financial products referred to in Article 9(3) of Regulation (EU) 2019/2088, indicate how the objective of a reduction in carbon emissions was aligned with the Paris Agreement]*

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- **How did the sustainability indicators perform?**
- **...and compared to previous periods?** *[include for financial products where at least one previous periodic report was provided]*
- **How did the sustainable investments not cause significant harm to any sustainable investment objective?**
 - *How were the indicators for adverse impacts on sustainability factors taken into account?*
 - *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

How did this financial product consider principal adverse impacts on sustainability factors? *[include section if the financial product considered principal adverse impacts on sustainability factors]*

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: *[complete]*

What was the proportion of sustainability-related investments?

Asset allocation
describes the share of investments in specific assets.

● What was the asset allocation?

[Include only relevant boxes, remove irrelevant ones for the financial product]

#1 Sustainable
covers sustainable investments with environmental or social objectives.

#2 Not sustainable
includes investments which do not qualify as sustainable investments.

[Include note for the financial products referred to in Article 5, first paragraph, of Regulation (EU) 2020/852.]

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities
directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

● In which economic sectors were the investments made? *[include information referred to in Article Article 61(c) of this Regulation]*

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy? *[include section for the financial products referred to in Article 5, first paragraph, of Regulation (EU) 2020/852 and include information in accordance with Article 62 of this Regulation]*

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- ☐ Yes: *[specify below, and details in the graphs of the box]*
- ☐ In fossil gas ☐ In nuclear energy
- ☐ No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

[include note only for the financial products referred to in Article 5, first paragraph, of Regulation (EU) 2020/852

Taxonomy-aligned activities are expressed as a share of:

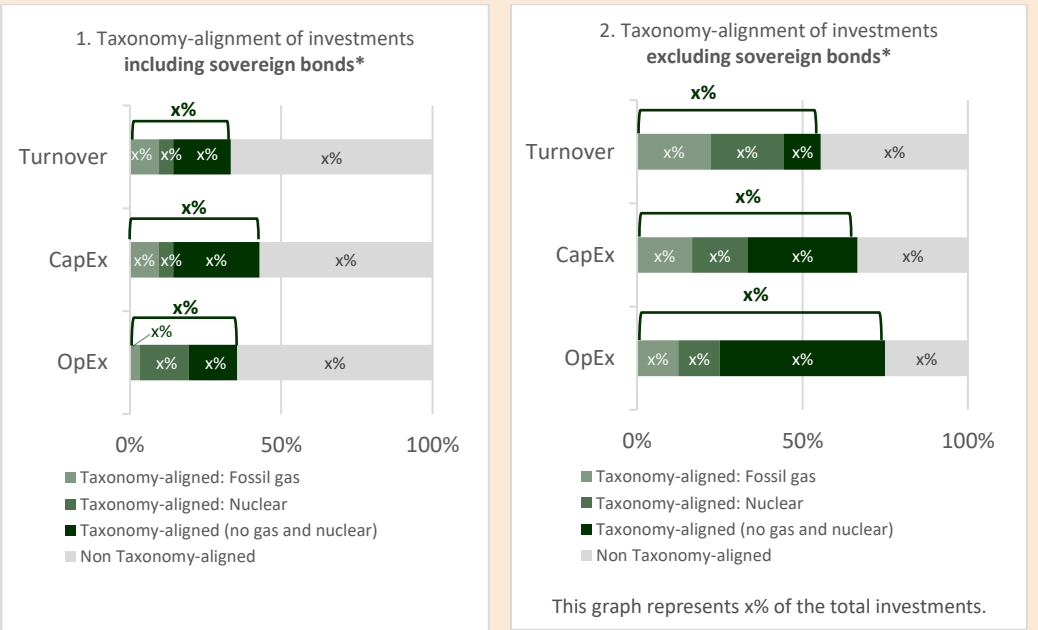

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

[include note for the financial products referred to in Article 5, first paragraph, of Regulation (EU) 2020/852 that invest in environmental economic activities that are not environmentally sustainable economic activities]

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

[Include information on Taxonomy aligned fossil gas and nuclear energy and the explanatory text in the left hand margin on the previous page only if the financial product invested in fossil gas and/or nuclear energy Taxonomy-aligned economic activities during the reference period]

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

- **What was the share of investments made in transitional and enabling activities?** [include a breakdown of the proportions of investments during the reference period]
- **How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?** [include where at least one previous periodic report was provided]

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy? [include only for the financial products referred to in Article 5, first paragraph, of Regulation (EU) 2020/852 where the financial product included investments with an environmental objective that invested in economic activities that are not environmentally sustainable economic activities and explain why the financial product invested in economic activities that were not taxonomy-aligned]

What was the share of socially sustainable investments? *[include only where the financial product includes sustainable investments with a social objective]*

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

What actions have been taken to attain the sustainable investment objective during the reference period? *[list the actions taken within the period covered by the periodic report to attain the sustainable investment objective of the financial product, including shareholder engagement as referred to in Article 3g of Directive 2007/36/EC and any other engagement relating to the sustainable investment objective]*

How did this financial product perform compared to the reference sustainable benchmark? *[include section only for the financial products referred to in Article 9(1) of Regulation (EU) 2019/2088 and indicate where the methodology used for the calculation of the designated index can be found]*

- ***How did the reference benchmark differ from a broad market index?***
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the sustainable investment objective?***
- ***How did this financial product perform compared with the reference benchmark?***
- ***How did this financial product perform compared with the broad market index?***

[include note for the financial products referred to in Article 9(1) of Regulation (EU) 2019/2088]

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.
