

SESAM Release 9.3

Release Notes

Release 9.3 of SESAM is a minor software release containing new features and bug fixes.

1. NEW FUNCTIONALITIES

The purpose of this release is to implement a Redesigned Reports List in the Back Office, to implement the Recent Updated Documents section and the Publication Request module in the front office. This release also implements the ERC Final EU Financial Distribution.

1.1.1. All project funding schemes

- A new module was implemented in Front Office to submit a requests for additional Peer Reviewed Journals, replacing submissions of requests via helpdesk.
- A section with Recently Updated Documents was implemented in the Front Office.
- In case of connection problems in the front office, the user is now informed and requested to reload the report or document when the connection is reestablished.
- The auto-save functionality was improved. It is now possible to preview also the manually saved version and additional information about the date and time of the saves is provided.
- The report list in the Back-Office was redesigned, providing faster and more intuitive acces to information and operations related to reports.
- A button 'Verify report' was implemented in the Front Office allowing to validate the data in the reports before submission.
- A new module for verifying and approving requests for new Peer Reviewed Journals was implemented in the Back Office.

1.1.2. Marie Curie funding schemes

- A new section to monitor MC COFUND reporting activities was implemented in the Back Office (extraction of fellowships reported via periodic reports).

1.1.3. BSG-SME funding scheme

- The text in section 3 of BSG-SME Periodic Report was updated.

1.1.4. ERC funding schemes

- In the back office, the Assessment reports were renamed to Monitoring reports.

2. FIXES / CORRECTIONS

The following fixes or modifications were implemented:

- An issue affecting correct display of fellow names instead of generic text “Researcher Registration Report” in the back office list of submitted RRRs was corrected.
- An issue affecting the compare reports functionality was fixed.
- An issue affecting the layout of all PDF rendered reports was fixed.
- An issue related to the ‘Save Order’ button in publications was fixed.
- An issue affecting notifications of deliverable submissions was fixed.
- The reports compare function was fixed in the Back Office.
- In Final Reports, the layout was modified to properly display the list of dissemination activities.

3. TECHNICAL IMPLEMENTATION

- Compatibility with Microsoft Internet Explorer 9 was improved.
- A permanent notification was implemented for browsers running in compatibility mode.
- Technical Implementation of the future Single submission functionality was finalised.
- The ECAS Global Logout was implemented.
