SESAM Release 9.4

Release Notes

Release 9.4 of SESAM is a minor software release containing new features and bug fixes.

1. NEW FUNCTIONALITIES

The purpose of this release is to implement EACI Progress and ERC PoC Monitoring report. It also extends the DOI retrieval functionality to all available types of publications and improves data validation for REA reports.

1.1.1. All project funding schemes

- The DOI retrieval functionality was extended to all available types of publications.
- In all concerned reports, the dissemination activities field was modified to handle a longer description.

1.1.2. REA funding schemes

- Data validation was improved in REA reports (i.e.: URL validation, validation of numeric data)
- The information about secondment partner acronym and country was added to the Monitoring Reporting Activities module for IRSES projects.

1.1.3. ERC funding scheme

- The ERC PoC Monitoring report was implemented.

1.1.4. EACI funding schemes

- The EACI Progress Report was implemented.
- A new field for ‘Detailed Progress per Work Package and/or other Specific Comments’ was added to EACI Interim Report.
- In EACI reports, the type of deliverables is now labelled as ‘nature’ and became a read-only information.

2. FIXES / CORRECTIONS

The following fixes or modifications were implemented:

- An issue affecting the creation of a Periodic Report from an import was fixed.
- An issue at the import of Fellowship duration from COFUND Researcher Registration Reports to Periodic Reports was fixed.
- It’s now not anymore possible to create a report with an invalid period.
- A bug in header for REA CP-CSA Periodic report was fixed.
- A bug in the Monitoring Reporting Activities for COFUND Periodic reports was fixed.
- A bug with DOI retrieval functionality was fixed.

3. TECHNICAL IMPLEMENTATION

- The Web Services security was improved.
